## Open call rules

Applications for Admission: Mestrado em Engenharia Zootécnica (Zootechnical Engineering)  
Academic Year 2025/2026

### 1. The program is promoted by

Universidade de Évora - Escola de Ciências e Tecnologia

### 2. Course Committee

José Manuel Mota Ruivo Martins (jmartins@uevora.pt)  
Fernando Paulo de Sousa e Sá Correia Marques (fcm@uevora.pt)  
Rui Miguel Carracha Charneca (rmcc@uevora.pt)

### 3. Program description

Animal production and its optimization must be complemented by minimizing environmental damage and losses in the food chain. The Master's degree in Zootechnical Engineering (MEZ) is approved by the Ministry of Science, Technology, and Higher Education, meets the requirements for admission to the Order of Engineers, and aims at the development and updating of scientific and/or professional knowledge, with the acquisition of skills in the design and execution of projects in the areas of animal production, processing and product quality, integrating the economy of production processes, environmental quality, animal welfare and public health.

Under the protocol established between the University of Évora and the University of Sassari, Italy, MEZ students have the possibility, by following a defined alternative path, to obtain a double degree from the aforementioned universities.

### 4. Career opportunities

Entities associated with animal production and the processing of its products and derivatives, with research, production, or marketing of technologies, foods, or animal equipment; service providers (projects, consultancy, management); official bodies for planning, regulation, administration, or supervision of activities involving animals; Federations, Associations, and Cooperatives of Producers; higher education or research institutions.

## 5. Number of registration at DGES

R/A-Cr 144/2012/AL03

## 6. Number of accreditation process by A3ES

ACEF/2021/1101716

## 7. Program Creation Norm

Diário da República n.º 38 de 23 de fevereiro de 2022, Aviso n.º 3859/2022

## 8. General conditions of access and admission

### i Legal conditions for access to the cycle of studies leading to the master degree

Those who meet the following conditions may apply to the cycle of studies that leads to the master degree:

- Holders of the bachelor degree or legal equivalent;
- Holders of a foreign academic degree fully recognised as satisfying the objectives identical to the bachelor degree by the relevant scientific body of the higher education institution they wish to be admitted to;
- Holders of an academic, scientific or professional curriculum vitae that is recognized as attesting to the capacity to carry out this cycle of studies by the relevant scientific body of the higher education institution they wish to be admitted to.

### ii Conditions of access to the cycle of studies at the Universidade de Évora

On the application date, the undergraduate students must satisfy conditions that guarantee the conclusion of their undergraduate degree until the 30th of October of the admission year. The admission and enrollment of these students is conditioned on the conclusion of the degree until this date, and the enrollment is canceled if the student does not complete the degree within that period

During the first application phase, students who have a maximum of 6 curricular units or 36 ECTS missing for conclusion of their degree can apply for the 2nd cycle; in the 2nd application phase students can apply if they have at most 3 curricular units missing and in the 3rd application phase if they have at most one curricular unit missing

The previous condition does not apply to students with a curriculum that reveals professional or scientific experience, which can be recognized by the competent scientific body, as attesting the students ability to carry out the masters degree/post-graduation, provided that the student required that recognition in the application process

### iii Specific admission conditions

Candidates for the Master's Degree in Zootechnical Engineering (2nd cycle) must meet the following criteria:

- 1) Holders of a Bachelor's degree (or legal equivalent) in fields such as Agricultural Sciences, Veterinary Sciences, Biological Sciences, or related areas;
- 2) Holders of a foreign higher academic degree (1st cycle) in fields such as Agricultural Sciences, Veterinary Sciences, Biological Sciences, or related areas, organized according to the principles of the Bologna Process.

## 9. Selection Process

- Academic Qualifications: 75%
  - Average grade in the highest qualification: 50%
  - Area of qualifications: 25%
  - Level of qualifications: 25%
- Curriculum Analysis: 25%
  - Professional Experience in the area of the program or related fields: 50%
  - Professional Training in the area of the program or related fields: 30%
  - Scientific and technical activities and publications: 10%
  - Participation in research projects: 10%

## 10. Maximum number of admissions

- Maximum number of admissions for candidates with nationality of European Union countries: 16
- Maximum number of admissions for candidates without nationality of European Union countries: 4

Depending on the number of applications, there may be transfer of vacancies from the international students applications to the European Union students applications or vice-versa.

Depending on the number of applications, there may be transfer of vacancies from the international students applications to the European Union students applications or vice-versa.

## 11. Minimum number of students

Minimum number of students: 8

## 12. Tuition fee

- Candidates with nationality of European Union countries: 1 050,00 €
- Candidates without nationality of European Union countries: 2 500,00 €
  - Annual Tuition fee for international students with merit scholarship: 1 050,00 €
  - Annual Tuition fee for international students with cooperation and development scholarship: 1 250,00 €

In the admission year, all students with international student status who have an undergraduate average of 15 or above (on a 0-20 scale) benefit from the international student merit scholarship tuition fee and all students from PALOP countries benefit from the tuition fee for international students with cooperation and development scholarship.

In the following years, to keep the merit or cooperation and development scholarship, the student has to meet the conditions stipulated in article 22 of the Academic Regulations of the University of Évora and the results are published until October 31 of each academic year, without the need to apply for the scholarship.

### **13. Organization / Duration**

- a. **Duration of the program:** 4 semesters
- b. **Number of ECTS to obtain the degree:** 120
- c. **Number of ECTS to obtain the master's course (conclusion of the curricular part):** 78
- d. **Double Degree:** Protocolo de dupla titulação com Università degli Studi di Sassari

### **14. Language(s) of teaching**

- Portuguese

### **15. Learning Type**

Presencial

### **16. Schedule type**

Mixed

### **17. Classes schedule (week days and schedule)**

The Master's in Zootechnical Engineering (MEZ) will be taught on Thursdays, Fridays, and Saturdays.

### **18. Program starting date**

September de 2025

February 26, 2025  
The Rector

Hermínia Vasconcelos Vilar
