### 3. Program description

Lifestyle Nursing is a holistic and multidisciplinary approach that aims to promote the health and well-being of individuals by combining conventional nursing practices with complementary therapies and lifestyle interventions. Underpinning this principle is Jean Watson's theory of Human Caring, which emphasises the importance of caring relationships and the holistic nature of nursing, focusing on the interconnectedness of mind and body.

### 4. Career opportunities

This course enables you to develop recognised competences so that, in the different nursing settings, you can practise nursing that promotes well-being using different integrative and complementary practices. Lifestyle Nursing can be practised during your regular nursing practice in a hospital or community setting or in Lifestyle Nursing Consultations that can be created and offered autonomously and freely within the Health System.

### 5. General conditions of access and admission

#### i Conditions for access to the post-graduate program

Those who meet the following conditions may apply to the post-graduate program:

- Holders of the bachelor degree or legal equivalent;
- Holders of a foreign academic degree fully recognised as satisfying the objectives identical to the bachelor degree by the relevant scientific body of the higher education institution they wish to be admitted to;
- Holders of an academic, scientific or professional curriculum vitae that is recognized as attesting to the capacity to carry out this cycle of studies by the relevant scientific body of the higher education institution they wish to be admitted to.

#### ii **Conditions of access to the post-graduate program at Universidade de Évora**

On the application date, the undergraduate students must satisfy conditions that guarantee the conclusion of their undergraduate degree until the 30th of October of the admission year. The admission and enrollment of these students is conditioned on the conclusion of the degree until this date, and the enrollment is canceled if the student does not complete the degree within that period

During the first application phase, students who have a maximum of 6 curricular units or 36 ECTS missing for conclusion of their degree can apply for the 2nd cycle; in the 2nd application phase students can apply if they have at most 3 curricular units missing and in the 3rd application phase if they have at most one curricular unit missing

The previous condition does not apply to students with a curriculum that reveals professional or scientific experience, which can be recognized by the competent scientific body, as attesting the students ability to carry out the masters degree/post-graduation, provided that the student required that recognition in the application process
