3. Program description

The effects of the socio-environmental crisis we are experiencing require urgent responses that integrate different fields and forms of knowledge. This requires human resources with interdisciplinary and transdisciplinary training. The course combines various scientific and humanist fields to encourage a deeper understanding of fundamental concepts and the use of interdisciplinary research methodologies. It also explores key aspects of environmental issues, contributing both theoretically and in terms of everyday practices and interventions to the development of an awareness that promotes the adoption of a sustainable lifestyle. This course is delivered exclusively via distance learning (e-learning). This format enables multiple and collaborative interactions, connecting people in different locations at a time that suits them.

4. Career opportunities

The course enables students to pursue a research pathway and, where appropriate, progress to a higher-level degree programme (Master's or PhD) with recognition of prior learning and credit transfer. It also enables students to acquire additional skills that will enhance their employability.

6. General conditions of access and admission

i Conditions for access to the post-graduate program

Those who meet the following conditions may apply to the post-graduate program:

- Holders of the bachelor degree or legal equivalent;
- Holders of a foreign academic degree dully recognised as satisfying the objectives identical to the bachelor degree by the relevant scientific body of the higher education institution they wish to be admitted to;
- Holders of an academic, scientific or professional curriculum vitae that is recognized as attesting to the capacity to carry out this cycle of studies by the relevant scientific body of the higher education institution they wish to be admitted to.

ii Conditions of access to the post-graduate program at Universidade de Évora

On the application date, the undergraduate students must satisfy conditions that guarantee the conclusion of their undergraduate degree until the 30th of October of the admission year. The admission and enrollment of these students is conditioned on the conclusion of the degree until this date, and the enrollment is canceled if the student does not complete the degree within that period

During the first application phase, students who have a maximum of 6 curricular units or 36 ECTS missing for conclusion of their degree can apply for the 2nd cycle; in the 2nd application phase students can apply if they have at most 3 curricular units missing and in the 3rd application phase if they have at most one curricular unit missing

The previous condition does not apply to students with a curriculum that reveals professional or scientific experience, which can be recognized by the competent scientific body, as attesting the students ability to carry out the masters degree/post-graduation, provided that the student required that recognition in the application process

iii Specific admission conditions

Applications are open to graduates from all fields of study.
